

Assignment G6

Teaching Dog Owners

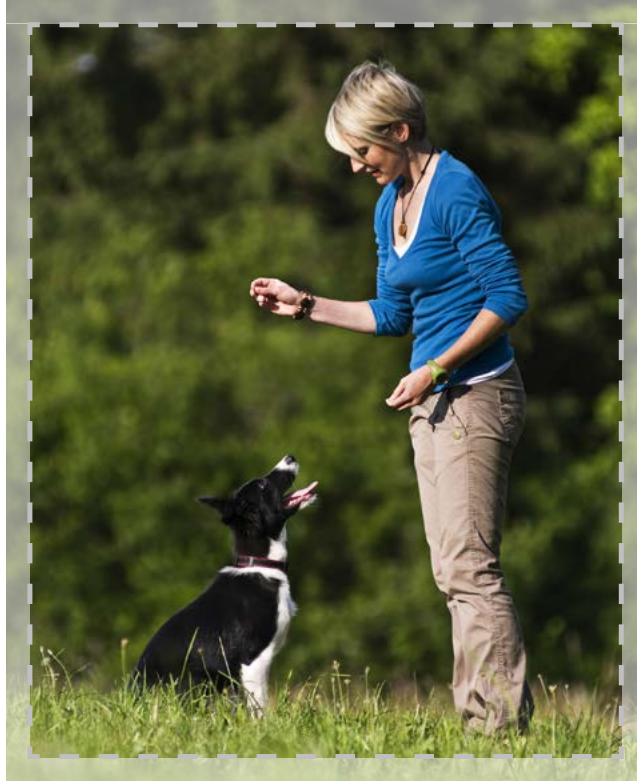

Dog trainers most commonly teach people to train their dogs. In this assignment, you'll practice teaching important training methods to a dog owner. Refer to the text "Teaching Skills" and the course video "Teaching People" to help you complete this assignment.

To complete this assignment, you'll need:

- A student
 - A dog
 - Treats/rewards
 - A clicker (optional)
 - A tether (optional)
 - A camera or smart phone to record video
 - A tripod, or someone to operate the camera
1. Ask your student to fill out the Release Form found under Handouts in this unit. Submit the completed Release Form with this assignment.
 2. Record a video of yourself teaching another person to train a sit using the luring method. During the session, you should provide:
 - A demonstration
 - A verbal explanation
 - A chance for your student to try luring, with your feedback

Note that for the purpose of this assignment the dog does not have to learn to complete the full behavior. Your tutor will be marking your ability to teach your student how to train with luring.

Your video should be no more than 5 minutes long. Use the framing shown below . If necessary, you may choose to tether the dog to keep him or her in the frame.

Save the video to your computer. Next, upload your video to YouTube and include the link below. Refer to the YouTube handout under Unit A on the Online Student Center for instructions to help you use YouTube.
